

APLS Surgery Soaker

is a disposable absorbent pad that contains blood, bodily fluids and solutions under operating room tables in all military and civilian medical environments.

Constructed with a highly absorbent core and poly backing, APLS Surgery Soaker is the safe way to maintain dry and clean conditions in all medical environments.

APLS Surgery Soaker's fluid absorption properties enhance the safety, cleanliness and infection control related to patient surgery. The highly absorbent pad retains all solutions including saline, betadine, and sterilants.

APLS Surgery Soaker improves workplace safety while reducing the expense, time and risk of the clean-up process.
