

CM ProSlide

CM ProLine

PRODUCT INFORMATION:

ProSlide is made of 3 mm solid, flexible HD-polyethylene with low friction. ProSlide is used for transferring of patients between X-ray/OR tables and trolleys/beds.

Stretch the patients clothing or the bed sheet. Hold the sheet with one hand and grab the ProSlide with the other hand according to the picture above. Slide two ProSlides halfway under the patient. Grab the sheet (not the ProSlide) and pull the patient over to the table/trolley or into the bed.

CM Proslide gives no artefacts on x-ray.

- EASY TO USE
- ERGONOMIC
- HYGIENIC
- DURABLE

Article no: CMPRO

Size: 86x39 cm

Weight: 0,8kg

Material: 3mm flexible HD polyethylene
