

APLS Life Guard

an extremely effective portable litter that provides essential thermal and absorbent protection during emergency rescues and evacuations. APLS Life Guard provides the features of a more extensive portable litter system, but in a more efficient and streamlined design.

The compact portable litter features a Mylar lining that helps retain body heat while a treated nylon backing protects against wind and moisture.

A highly absorbent cellulose core wicks fluids away from the patient, thus providing an additional level of protection. A robust Velcro zipper provides easy access to the patient and eight padded handles enable first responders to quickly transport the patient. APLS Life Guard is available with or without a Mylar-lined hood.

FEATURES :

- Built-in thermal properties for warmth during transport
- Treated nylon backing protects against wind and moisture
- Full-size litter is lightweight, rugged, strong
- Contains up to 1.25 liters of blood and bodily fluid
- Supports 320 - 350 lbs (145.15 – 158.76 Kg) wet or dry
- Velcro zipper provides access to point of injury
- 8 (Eight) reinforced handles enable easy carrying and transport
- Pocket for medical documents and personal effects
- Detachable, Mylar-lined hood
- Delivered in compact, compressed vacuum pack

PART No. and NSN No.

With Hood (Tan): Part APLSV-3281H/6-2

Without Hood (Tan):

Part APLSV-3281H/6-2E

Without Hood (EMS Red):

Part APLSV-6983-7

NSN 6530-01-657-1997

SPECIFICATIONS :

- | | | |
|---|-------------------------------------|--|
| • Finished Product Size:
32" x 81"
(81.28 cm x 205.74 cm) | • Pad Thickness: 0.15"
(0.38 cm) | • Weight Capacity:
320 - 350 lbs.
(145.15 – 158.76 Kg) |
| • Target Absorbency (H ₂ O):
1,000 – 1,450 grams, target
1,250 grams (1.25 liters) | • Pad Weight: 1.4 lbs.
(.635 kg) | |
