

## APLS Thermal Guard Mylar

is a portable and disposable absorbent litter that provides maximum thermal protection during emergency transport. APLS Thermal Guard Mylar provides an integrated system for improved patient care — the highly absorbent cellulose core wicks fluids away from the patient, the Mylar-lined bag and detachable hood retain body heat, and the treated nylon backing protects against wind and moisture.

APLS Thermal Guard Mylar can retain 1.7 liters of bodily fluid while safely supporting up to 350 pounds. Eight closable access points enable medical personnel to better treat the patient at point of injury.

Separately, APLS Thermal Guard Mylar Tactical features two heavy duty buckles and a rugged skid plate material for dragging rescued personnel through challenging terrain.

Additionally, APLS Thermal Guard Mylar Tactical with Active Heat includes an active heating pack for added thermal protection during transport.

### FEATURES :

- Built-in thermal properties for warmth during transport
- Contains up to 1.7 liters of blood and bodily fluid
- Supports 320 - 350 lbs. (145.15 – 158.76 Kg) wet or dry
- Eight (8) access points enable treatment at point of injury
- Eight (8) reinforced straps allow for easy carrying and transport
- Leak-proof nylon backing for additional strength while dragging
- Pockets for medical documents and personal effects
- Detachable, lined hood
- Lightweight, rugged, strong
- Compressed vacuum packed

### SPECIFICATIONS :

- Finished Product Size: 22" x 76" (55.88 cm x 193.04 cm)
- Pad Thickness: 0.2250" (0.57 cm)
- Weight Capacity: 320 - 350 lbs. (145.15 – 158.76 Kg)
- Target Absorbency (H<sub>2</sub>O): 1,500 – 1,850 grams (Target = 1,700 grams, or 1.7 liters)
- Pad Weight: 2.9 lbs. (1.32 kg)
