HACCP-Assessment (Hazard Analysis and Critical Control Points)

The following product

Activin® HandHero

has to proved of value in the food industry/trade and is conform with the standards for skin agents according to the HACCP concept.

The remaining individual components of the formulation after the application of the product on the skin were calculated and the oral intake by the food was detailed evaluated.

Result:

Due to the detailed evaluation of the formulation and the ingredients can an impairment of the indulgence of food by Activin® HandHero ruled out.

Sincerely

Beate Wanner
Staatl. gepr. Lebensmittelchemikerin
