

APLS Gurney Guard

is a disposable absorbent pad used on top of litters and stretchers to contain blood and other bodily fluids. APLS Gurney Guard improves patient comfort, protects the medical team and equipment, and improves the efficiency of the clean-up process.

APLS Gurney Guard's fluid absorption properties enhance the safety, cleanliness and infection control related to patient transport and care. The highly absorbent pad retains all solutions including saline, bedatine, and sterilants.

APLS Floor Guard

is a disposable absorbent pad that absorbs blood, bodily fluids and solutions. Constructed with a highly absorbent cellulose core and a low-slip, impervious poly backing, APLS Floor Guard is ideal for surgery room floors, ambulances and helicopters.

APLS Floor Guard absorbs up to 2.6 liters of blood and bodily fluids, or 10 times its weight. A clean, dry floor improves workplace safety while reducing the expense, time and risk of clean-up.
